

CODE COMPLETION

```
Enter plaintext: islo minoras  
Enter key: 231
```

```
Encryption Table:  
I S L  
O M I  
N O R  
A S D
```

```
Encrypted text: SMOSLIRIONA
```

```
Do you want to decrypt this message? (Y/N): y
```

```
Decryption Table:
```

```
O S L
```

```
N M I
```

```
A O R
```

```
- S I
```

```
Decrypted text: OSLNMIAORSI
```

```
Enter plaintext: BRIT45  
Invalid input, alphabets only.
```

```
Enter plaintext: MKSMK[][][\nInvalid input, alphabets only.
```

```
Enter plaintext: █
```

If the user input numbers and symbols or special characters, the code will trap it.

```
Do you want to encrypt another message? (Y/N): n
```

```
Goodbye!
```

End of the program!
